

AUTOMATION WITH VEDA

Meet Veda: We take care of the complexities within data so that you can focus on what matters most, the health of your members.

CASE STUDY: LARGE BCBS PLAN

GOALS: Leverage automation to improve the labor-intensive, manual provider operations process and increase the trackability, accuracy, and efficiency of the roster intake process.

<p>ACCURACY</p> <p>Objective Accurate data validation and enhancement on license, sanctions, NPI 1&2, group name, practice address, gender, and credential on every provider and roster at intake</p>	<p>TRACKABILITY</p> <p>Objective Standardize the ticketing process to enable workflow tracking by the provider</p>	<p>TIME SAVINGS</p> <p>Objective Automate time-intensive manual roster intake processes to reduce the processing time by at least 2 minutes per row</p>
<p>Result Veda delivers accuracy results of over 99%</p>	<p>Result Veda partners with RPA process to obtain clear distribution and visibility</p>	<p>Result Veda delivers time savings of 25-40% per row and over 750 hours saved in the first two months</p>

RESULT DRIVEN SMART AUTOMATION—ACHIEVE MORE IN LESS TIME

 <p>Zero backlog roster process</p> <p>processing all volume within 24 hours of receipt</p>	 <p>Reduced provider abrasion</p> <p>supplementing data to minimize manual outreach</p>	 <p>Veda automates over 40,000 hours/month</p> <p>for some of the nation's top health plans</p>	 <p>The fastest processing speed</p> <p>leader in proprietary technology—five patents and growing</p>

WHY VEDA?

Veda's Smart Automation is unique—our human-in-the-loop technology evolves manual processing workflows and quickly delivers accurate data, guaranteed. Tailored to solve the complexities of your data needs, Veda provides:

- ✓ Automation of provider roster intake
- ✓ File standardization
- ✓ Real-time data validation
- ✓ Data accuracy updates and more

VEDA GUARANTEES

- ➔ Data accuracy SLAs reported monthly
- ➔ Technology solutions tailored to your business and process requirements
- ➔ Consistent, comprehensive implementation and support structures
- ➔ <24hr ETL turnaround time process and delivery
