

AUTOMATION WITH VEDA

Meet Veda: We take care of the complexities within data so that you can focus on what matters most, the health of your members. Our Smart Automation is unique—our technology evolves manual processing workflows and quickly delivers accurate data, guaranteed.

CASE STUDY: LARGE, MULTI-STATE BCBS PLAN

GOALS: Leverage automation to modernize and improve the labor-intensive, manual provider operations process to increase the accuracy and efficiency of roster intake.

RESULTS:*

In the first month, Veda's automation achieved:

- ✓ 880 unique roster files processed
- ✓ 145K+ rows of data processed
- ✓ 3 seconds per row— 5 minutes per file—average processing time

Our roster team has been able to streamline training of new staff that, in conjunction with Veda's improvements, **drove down our roster backlog to same day receipts.**

99% of providers verified for validity or identified for corrections

75x faster processing speed—freeing up 7,000+ resource hours

Eliminated backlog and implemented process for sustained intake efficiency

VEDA GUARANTEES

- Data accuracy SLAs reported monthly
- Technology solutions tailored to your business and process requirements
- Consistent, comprehensive implementation and support structures
- <24hr ETL turnaround time process and delivery

*Results are from a single, large-population state
